World Scripture Timeline

Every entry with its location and map coordinates: 730 entries. Dated entries run from 12550 BC, and some spans end as late as AD 1838; one entry, Nsude Pyramid Shrines, has no established date and stands without one. World cultures alongside the Bible and Book of Mormon records, in the order they begin. Coordinates are live links: click one to open that place on the map.

Categories: **World** · **Bible** · **Book of Mormon** · **Bible + Book of Mormon**. Book of Mormon land entries carry model coordinates for both settings. Rows checked against the timeline data in an October 2026 data-consistency review; that check establishes consistency, not historical verification of every entry. Coordinates are shown rounded to three decimals; the links carry the full values. For the note recorded with each entry, see the reader and evidence companions.

Jump to: **3000 BC** · **2000 BC** · **1000 BC** · **600 BC** · **AD 1** · **AD 400** · **AD 800** · **AD 1200**
